Chris Head. CFC Secretary Season 2009-2010

About the Club

The Canberra Fisherman's Club Inc. is a sportfishing club that endeavours to promote a social awareness among its members, single or family. General meetings are held on the second Tuesday of every month at the Eastlakes Football Club, 3 Oxley Street Griffith beginning at 7:30pm. All members and visitors are most welcome.

Members of the Canberra Fisherman's Club are eligible to set Club Records and, upon payment of an Australian National Sportfishing Association (ANSA) affiliation fee, also able to set Australian records and World records (through ANSA affiliation with the International Game Fishing Association (IGFA)).

Aims of the Club

- To promote sport fishing
- To foster the art of angling
- To teach the art of angling to new members and particularly juniors
- To promote the study and conservation of fish species and the environment
- To co-operate with and support other bodies with similar aims and ideals.
-

The Club also supports the Recfish Australia National Code of Practice for Recreational and Sport Fishing, which endorses:

1. Quickly and correctly returning unwanted or illegal catch to the water
2. Quickly killing fish that are kept for consumption
3. Using only appropriate, legal tackle, attending gear and valuing the catch
4. Taking no more than our immediate needs
5. Supporting and encouraging activities that preserve, restore and enhance fisheries and fish habitat
6. Understanding and observing all fishing regulations and reporting illegal fishing activities
7. Preventing pollution and protecting wildlife by removing rubbish
8. Taking care when boating and anchoring to avoid damage to wildlife and habitat
9. Using established roads and tracks
10. Reporting environmental damage
11. Avoiding unnecessary interactions with wildlife species and their habitats
12. Practising courtesy towards all those who use inland and coastal waters
13. Obtaining permission from landholders and traditional owners before entering their land
14. Caring for our own safety and the safety of others when fishing

President's Report

Hi all,

Welcome to my first report as President for the 2009/10 year. The AGM has come and gone, and this year it was very pleasing to see so many people willing to come forward to fill Committee positions. Before I go too far, I'd like to thank last years Committee for their great effort. It was great working with you all, and in my opinion you all should feel proud as you contributed to a very successful year for the Club.

The new line-up for the 2009-10 Committee sees Jamie Stanfield as the Vice-President, Chris Head in the Secretary role, Pat Luttrell returning as the Assistant Secretary, and Brian Stacy returning as the Treasurer. Chris De La Rue, Keith Smith and Steve Borkowskis have returned on the Committee, with Glen Malam and Anthony Heiser stepping forward for Committee positions this year. I'd like to thank all the above for committing to their respective roles for the next year, I'm sure we'll all have a good time as we steer the Canberra Fisherman's Club through another great year.

This years Presentation Dinner is fast approaching, being on the 12th September at Eastlakes Football Club. Steve Borkowskis has been busy finalising the fishing results and has organised the trophies. There has already been a good response for attendance, so it looks like it'll be a great event. If you would like to attend, please RSVP by 5th September to ensure we cater for you. It'd be great to see you there!

Outings

Last weekend was the Buckenderra outing, and it looked like those that attended had a good time. I didn't attend, but thanks to Anthony Heiser and You-Tube, I was able to see some of the action. Some nice fish were caught however it did look a little cool. Check it out.

<http://www.youtube.com/watch?v=ZLgmo6lCnfA&feature=channel>

The next outing is Kalkite on the 19th & 20th September. This is a very popular outing, with 19 names on the list already. It looks like we'll need to arrange for additional accommodation, so the sooner you put your name down the better. Let Keith Smith or myself know if you'd like to attend.

And then in October it's back to Talbingo on the 24th and 25th for the Wagga- Wagga Boat Club Anglers ANSA Convention, and on November 6th to the 8th it's our turn with the Burrinjuck Convention. Some good fishing ahead and some good times as well.

Well that's it from me this month, short and sweet. My latest capture is a Blue Salmon from Airlie Beach. Gee it's great up in the tropics this time of year, very warm!!

Greg Davis

Work fills in time between fishing trips.

Secretary's Report

Hello all members & visitors,

The AGM has come and gone again which means another year has passed us by. I also would like to thank the outgoing committee as it was my first year on the committee last year; you all made me feel welcome and taught me a lot. I would also like to thank Shane for all his tireless work in many committee roles over the past years and this year Shane you have your wish a bit of a break from the committee to pursue your pleasures,(I hope I can call on your assistance from time to time?).

Welcome to the new committee with some familiar faces and a couple of new faces, look forward to working with you all towards a great year for the club.

CFC Membership

If you haven't renewed your CFC membership yet, the grace period has well and truly lapsed. Captures cannot be accepted from non-financial members and you will be removed from the newsletter mailing list after this issue.

Membership cards for financial members will be available from the September meeting onwards. Remember to mention you are a CFC member and show your card when shopping with our sponsors

Members don't lose sight of the reason why you joined the club; it's all about meeting like minded people and wanting to share the fun and all the opportunities this great sport has to offer. With this in mind I would welcome ideas from members on what you would like to do and see at the monthly meetings and other club activities for that matter. The more you as members contribute to the club the more exciting the year will be and you might just surprise yourself the rewards this can bring. Well that's my thought anyway.

We have a great meeting venue which has all the AV mod cons which allows us to present anything that comes to mind; eg movies, DVD's, internet sites, power point presentations, pictures & images etc, so lets make the most of it.

Reminder: Patrick Brennan will be presenting at the September meeting and will answer all your questions related to braided lines, leader material and knots. Patrick has suggested members attending his presentation could bring a reel requiring spooling;

"They will need, the reel, the butt end of a rod, a spool of mono for backing. Has to be about 15% heavier or more than the breaking strain of the braid, but they will only need a small amount (less than 100 meters in most cases). Their choice of braid.

Reading glasses if they struggle with knots."

So come along, bring a fishing friend, a neighbour, a relative or the whole family!

Correspondence

Out: Proposed Currarong Boat Launching Ramp Support required. Shane made a submission to this on behalf of the Club, basically to the effect that we supported this ramp and any other future facilities to improve recreational fishing access. Link to review

<http://shoalhaven.nsw.gov.au/council/pubdocs/communityissues/exhibition/CBR/Default.htm>

Well that's all from me for a first report.

May all your fishy dreams eventually come true!

Chris Head

RECORDERS REPORT

Hi All

We've started to have a few more captures trickling in so there is enough to make the Championship Standings and Board Fish worth posting from now on.

We haven't had any Outings since the last Newsletter; however the August Outing to Buckenderra isn't too far away (August 22nd-23rd). Hopefully those attending can land a few qualities Brown and Rainbow trout.

Anthony Heiser took a holiday to Fraser Island and caught a range of fish including plenty of Tailor to 1.03kg, a few Mulloway to 0.87kg (480mm), one Dusky Flathead at 0.75kg (490mm), and a few smaller Dart and Trevally. Anthony's mate caught a 2.30kg Flathead as well. Anthony has a short DVD with the highlights of his trip; perhaps we could view it at an upcoming Meeting.

Several members have been catching quality Rainbow Trout recently. Keith tops the list with a 2.32kg specimen taken on 3kg line. My best to date is 2.18kg on 1kg line, Brian Stacy caught one at 1.72kg on 2kg line, Jake MacKenzie caught 4 with the best at 1.76kg on 1kg line, Shane Jasprizza has caught a couple with the best at 1.04kg on 1kg line and Ashley Barber caught one at 550mm.

Brian Stacy caught an Australian Salmon of 0.91kg at Nuggan Head.

Apart from that there is not a lot else to report, I hope to see a few more captures coming in as we head into the warmer months. It's usually quite slow in regards to captures at this time of year, I think many people don't like braving the cold weather, but there can be rewards for those who do.

Hope you all get a chance to do some fishing in the next month, looking forward to some capture forms coming in at the September Meeting.

Cheers

Steve.

Shane Jasprizza Reports on Lake Burley Griffin

Notes on Lake User Group meeting – 12 August 2009

On Wednesday I attended the Lake User Group Meeting at the National Capital Authority (NCA), chaired by the CEO Gary Rake. The following issues of interest to CFC were discussed:

Communications strategy for lighting of small boats

A draft was distributed and discussed. No changes to regulations (see below), but a recommendation that "small un-powered craft" not covered by regs also show a white light. It was suggested that the wording be changed to "all other un-powered craft" to be more inclusive.

Lakes Ordinance Act 1979 requires:

- Small power boats (less than 5m) to show a white light while on the lake between sunset and sunrise.
- Sailing vessels need to show red port, green starboard and white stern lights

I raised the discrepancy between this and NSW Maritime rules, but the Chair suggested that Ordinances were too hard to update.

Lake maintenance and works issues

NCA involved in revegetation issues below Scrivener Dam. There is a proposal to put lights on the rowing course markers at Yarramundi Reach. Navigation lighting at Black Mountain Peninsula was requested. New paths at Jerra wetlands and Kingston Foreshore were being considered to complete the loop of East Basin. Intention was for cycling groups to promote the lake ride as a national attraction. \$2m has been put aside for redevelopment of Bowen Drive road crossing

Blue-green algae and lake closures

ACT Health had revised their guidelines for closing the lake. Warnings only will now be issued for 20,000-50,000 cells/mL. Previously, lake would close at 20,000.

NCA in doing a study on possible actions to reduce algae in the lake. Found that concentrations of both algae and nutrients in the sediment were highest in East Basin, but high at all inflow points.

Possible short-term actions were to put in water circulation devices or a clay-based product put in the water. Costs are in the millions for either option and there is no allocated budget at present. Concerns were raised over the impacts of both options on fish and other water creatures and over stirring up potentially toxic sediment with the circulation devices.

Longer term options involved looking at the sources and movement of nutrient loads, re-establishing wetlands and riparian habitat. The Molonglo Catchment Group's "Molonglo River Rescue" project was also mentioned.

Bridge projects

LUG requested that the Immigration Bridge people come to a meeting to discuss their plans, saying that media releases were not good enough. NCA suggested a broader Community Forum, with LUG members as presenters.

Also mentioned was a plan for a bridge at the Weston Park redevelopment, which wasn't in the initial plan, but seemed to have "snuck in" to later designs. Public consultation had closed.

RiverSmart Australia

CEO Bill Phillips gave a brief introduction of his group, who are set up to facilitate and promote projects to improve river health. Focus was on community involvement and community based-projects.

He mentioned the idea of a "Celebrate the Lake" type of festival, involving all user groups and showcasing the lake.

Fish stocking

I asked "who was the best person to speak to at the NCA about fish stocking".

Response "We are in the very early stages of a coordinated approach with the local fishing clubs".

The Chair said this would be welcome, especially if it took the workload off them and they just signed a cheque.

Peter Clark was the best contact and I committed to keep the LUG informed.

Shane

T56737

Two short shipping anecdotes today.

When the liners used to traverse the Suez Canal, an enthusiast local gentleman came aboard with the hope of cutting the crew's hair. He proudly carried what he thought was a good reference from a P&O captain which read '**If you want a good haircut, I recommend that you give this man a wide berth.**'

Anecdote from Admiral Lord Fisher's Memories and Records;

He had crossed to America from England for the wedding of his son, and recounted this episode.

"The American barber on board the "Baltic" told me a good story. He was a quaint man, clean shaved and wore black alpaca throughout. Halfway across the Atlantic I was waiting to have my hair cut, when a gentleman bounced in on him, kicking up a devil of a fuss about wanting something at once!

The barber, without moving a muscle, calmed him by saying:

"Are you leaving to-day, Sir?"

ANSA All-Tackle Masters

Listed below are the trophy lengths for the eligible ANSA species (NSW specific ones in *red*). These lengths apply to the All-Tackle Masters and Length-Only Records that ANSA introduced last year.

The way the All Tackle Masters work is that if you catch a fish longer than the Trophy Length, it is a Masters capture (equivalent to a 100 point capture under the line class Masters). Catch 10 different Masters Fish and you will be awarded with an All Tackle Master Award.

Also, there is a new All Tackle "Length Only" National Record chart for national records based on length, rather than weight and line class. ANSA NSW has also introduced a State Length Only record chart for captures caught by NSW members.

More info on the All Tackle divisions and records can be found on the ANSA website, www.ansa.com.au, or on the ANSA NSW website, www.ansansw.com.au.

Why not get out and give it a go – the next State or National Record could have your name on it!
