# About the Club

The Canberra Fisherman's Club Inc. is a sport fishing club that endeavours to promote a social awareness among its members, single or family. General meetings are held on the second Tuesday of every month at the **Croatian Deakin Soccer Club, 3 Grose Street, Deakin.** beginning at 6:30 pm. All members and visitors are most welcome.

Members of the Canberra Fisherman's Club are eligible to set Club Records and, upon payment of an Australian National Sport Fishing Association (ANSA) affiliation fee, also able to set Australian records, and World records (through ANSA affiliation with the International Game Fishing Association (IGFA)).

## Aims of the Club

- To promote sport fishing
- To foster the art of angling
- To teach the art of angling to new members and particularly juniors
- To promote the study and conservation of fish species and the environment
- To co-operate with and support other bodies with similar aims and ideals.

The Club also supports the Recfish Australia National Code of Practice for Recreational and Sport Fishing, which endorses:

1. Quickly and correctly returning unwanted or illegal catch to the water
2. Quickly killing fish that are kept for consumption
3. Using only appropriate, legal tackle, attending gear and valuing the catch
4. Taking no more than our immediate needs
5. Supporting and encouraging activities that preserve, restore and enhance fisheries and fish habitat
6. Understanding and observing all fishing regulations and reporting illegal fishing activities
7. Preventing pollution and protecting wildlife by removing rubbish
8. Taking care when boating and anchoring to avoid damage to wildlife and habitat
9. Using established roads and tracks
10. Reporting environmental damage
11. Avoiding unnecessary interactions with wildlife species and their habitats
12. Practising courtesy towards all those who use inland and coastal waters
13. Obtaining permission from landholders and traditional owners before entering their land
14. Caring for our own safety and the safety of others when fishing.

## President's Report

CFC Treasurer Sarah Borman presenting CFC President Bonnie Allen with the Member's Monthly Jackpot of \$250 at the January General Meeting.

Welcome to the first newsletter of 2020. I hope you've managed to avoid the worst of the heat!

At our first General Meeting for 2020, I announced that we would encourage members to give a short presentation on their tips and tricks for fishing. Christ Head presented an informative discussion on Bream fishing at our February Meeting. Chris Lemmon will present his tips and tricks on knot tying at our March Meeting.

The first Club outing for 2019 was the Carpathon at Lake Burley Griffin. We had a good turn out, including many Facebook friends of the Club joining us on the day. While there weren't great numbers of carp caught, there were still some great fish caught, including Spike Murry's 4.2 kg Carp, which put up a great fight. Congratulations to the van der Westhuizen Family for taking out the winning team trophy. A big thanks to all that came – I'm already looking forward to next year's Carpathon.

After the Carpathon, the Club headed down to Tuross for our traditional Australia Day long weekend outing. It was another well-attended outing. The outing started off with a bang when John Bosch landed a 92 cm Flathead. Mitchell Malam also did nicely with a 60 cm Flathead. And I heard the Rural Fire Service put on an aerial display of choppers and planes swooping down to collect water for the firefighting effort with the nearby bushfires.

Looking ahead, the next four outings are ANSA Conventions:

- 15-16 February 2020: ANSA Nowra Convention
- 6-9 March 2020: ANSA Narooma Convention

- 27-29 April 2020: Sydney Sportsfishing Tournament
- 17-19 April 2020: SES Recovery Appeal Fishing Competition (formerly the South Coast Mighty Bonanza)

The Nowra Convention will have already taken place by the time the newsletter is published. I hope those of you who travelled to Nowra weighed in some trophy winning fish, or at least taken home some raffle prizes.

The Canberra Fisherman's Club has a long history of wins at the Narooma Conventions, although we've been claiming 'silver' or 'bronze' over the last few years. It would be great to break the drought and take home the Champion Club Trophy. To upgrade from Bronze/Silver to a Gold medal, we need to bring more Ladies and Junior Anglers to this outing.

For the first time, the Club has included the Sydney Sportsfishing Tournament in its Outings Calendar. Anthony has now fished this Convention two years in a row and now knows a few landbased fishing spots within close proximity to the Convention HQ at South Sydney Amateur Fishing Association's Clubhouse in Malabar. You can camp for free and park your boat and trailer at the Clubhouse. Anthony also says the Saturday Night Spit Roast is awesome.

Ordinarily, the Euro Fishing Association would have hosted the South Coast Mighty Bonanza in April. This competition was renamed 'Hook in Eurobodalla' under a new sponsorship arrangement. It has been postponed to 2021. Instead, the EFA will host the SES Recovery Appeal Fishing Competition.

The EFA is hosting the SES Recovery Appeal Fishing Competition to raise money for the Batemans Bay SES, which lost its shed and equipment due to the recent bushfires. The insurance is only covering the shed and large assets. This tournament will raise funds to cover things like chainsaws, generators, clothing, etc for the SES.

Finally, our lucky member draw has reset to \$25, after yours truly won the draw and pocketed a neat \$250. Brian's name was called out at the February Meeting but he missed out. So if you want to take home \$50, you need to attend our next General Meeting at 6.30 pm, Tuesday, 10 March 2020, at the Deakin Croatian Soccer Club. Keep safe on the water

Bonnita Allen  
President

# Recorder's Report

G'day all,

My job as recorder has been a little quiet of late. Other than outings, there are very few capture forms rolling in. In fact, only 37 out of the 169 captures registered so far this year have not been from an outing.

Hopefully it's been the heat, dust, smoke and now rain that have been keeping people from fishing and not busy lives (that's been the killer for me, in addition to the others). Hopefully once the flood waters clear the fishing will improve and we can all make some time to get a few captures in. I know Glen is keen now that he's a man of leisure!

After Chris Head's excellent presentation on Bream fishing at the February general meeting I expect to see many large Bream captures soon.

The ANSA NSW 12-month competition standings were updated at the beginning of the month and I noticed there are a couple of holes we can target. Some worth targeting include:

- Landbased, non-game has a single entry at 125 points,
- Sportsfishing, Saltwater lakes & estuaries has no entries,
- Lurecasting, Freshwater has no entries,
- Flyfishing, Saltwater and Freshwater have no entries (Anthony?), and
- Capture by a Junior, boy and girl both have no entries.

Another great opportunity to get out is the Pirtek Fishing Challenge that is coming up in about a month's time (the 15th March). It's worth entering even if you don't end up fishing it. Think of it like a \$25 raffle ticket in a \$65,000 boat where the proceeds go to cancer research. I am already registered and will be keeping an eye on conditions and the weather leading up to the event before deciding where I go.

That's it from me this month. Tight lines and keep those captures rolling in.

John Bosch  
Recorder

# The Sydney Sportsfishing Tournament Fact Sheet

## FACT SHEET Sea Sea Marine

### 27th Sydney Sportfishing Tournament 2020

**Fishing times;** Start: 5am Friday 27th March 2020  
Finish: Weigh in 1pm Sunday 29<sup>th</sup> March 2020  
Weigh masters will be available as well as Bar staff.

**ENTRY FEES:** All entry costs include catering  
\$40 - Senior  
\$20 - Junior  
\$100 - Family 2 Adults and 2 Juniors

**Meal Times;**  
Friday Dinner 6.30 pm bbq  
Sat breakfast 5.00 am Continental only or bbq available if you wish to cook.  
Sat Lunch Supplied at Breakfast (Make yourself)  
Sat Dinner 6.30 pm 'til 8.30pm  
Sunday Breakfast 5.00 am Continental only or bbq available if you wish to cook.  
Sunday lunch 12.30pm 'til 2pm  
Breakfast is Continental style, (breads, cereals, fruit etc) no hot meals, but bbq facility is available.

**\*\*\*Anglers to supply own plates, cups and cutlery\*\*\***

**Entertainment;**  
Raffles on Saturday evening and Sunday presentation. One per day.

**Tides for weekend;**  
Friday 27<sup>th</sup> March 2020; Low 04.54am (0.50) High 11.01am (1.53)  
Low 17.02pm (0.51) High 23.19pm (1.62)  
Saturday 28<sup>th</sup> March 2020; Low 05.30am (0.52) High 11.58am (1.52)  
Low 17.33pm (0.56) High 23.54pm (1.62)  
Sunday 29<sup>th</sup> March 2020; Low 06.16am (0.56) High 12.17pm (1.37)

**Ramps local;**  
Botany Bay Boat Ramp Foreshore Drive, Botany  
Kyeemagh Boat Ramp Mutch Avenue, Kyeemagh  
Malabar Beach (small tinnies only) Bay Parade, Malabar

#### **Important Notes for Tournament;**

Captures in the following length only sections **ARE NOT** eligible for points towards the Champion Club award, but are open to all ANSA and Non-ANSA members:

**George Pratt Length Only Species Awards** (Snapper, Flathead and Bream). Catch and Release is preferred but is not compulsory.

**Length Only Species Awards** (Kingfish, Morwong, Trevally, Bonito, Mulloway and Salmon)  
Catch and Release is preferred but is not compulsory. Photos with ID cards are a must.

**Most Meritorious Award** (Eligible for ANSA members ONLY)

**Port Botany Boat Ramp** can experience long delays in launching and retrieving boats due to overcrowding. Parking is also at a premium in good weather events, so get there early and make sure you have enough time to retrieve your boat and get back to the Club grounds on Sunday morning / noon prior to weigh-in dead line.

**Rock Fishing;**

It is now a legal requirement for anyone who is rock fishing anywhere in the Randwick local government area, including children, or anyone who is helping them rock fish, must wear a lifejacket. This is also recommended for all other rock fishing areas.

**Sydney Tournament Minimum Species Size limit;**

Bream **30cm**; Mulloway **70cm**; Flathead **50cm**; Snapper **45cm**; Tailor **40cm**; Trevally **35cm**

**Entry of Captures;**

A capture can only be entered into one of the particular divisions with the exception of the George Pratt Length Only Awards and the Length Only Species Awards. (Eg: A fish may be submitted in the Tagging division and the Length Only Species.)

**Toilets & Showers;**

Toilet and shower blocks for both Ladies and Men are located on site.

**Catering;**

Thursday BBQ supplied for early arrivals.

First fully catered meal is a bbq Friday evening at 6.30pm on the 27<sup>th</sup> March 2020.

Use BBQ's if you require cooking facilities prior to Tournament commencing.

Saturday Night Raffle held at 8.30pm with Videos showing.

Sunday 29<sup>th</sup> March weigh-in ends at 1pm. No fish will be weighed after 1pm if the fish are not in the weigh area.

Breakfast is Continental style, (breads, cereals, fruit etc) no hot meals, but bbq facility is available.

**Petrol Stations;**

Corner Bunnerong Rd & Franklin Sts Matraville 6:30am open

BP Service Station Bunnerong Rd Matraville 6:30am open

7 Eleven Bunnerong Rd Matraville Open 24 hours

**Eateries;**

House of Pie (Next to Matraville Pub on Bunnerong Rd.) Open 24hrs for the best pies, bread, cakes, milk and drinks.

7 Eleven Bunnerong Rd - All foods catered for.

# Jackson Chinu System = BREAM

Jon Vogel aka the Armchair Angler

I've had several Jackson Chinu Koroli in my 'misc tackle' box for quite a while now. In fact, I'm pretty sure I picked up one or two from the raffle prize table more as a curiosity, and I suspect others may have done so too.

According to Mr Google, 'Chinu' is Japanese for Bream, and while these Jackson lures have been specifically designed with Bream in mind, I'm sure they must be equally effective on other species too. For example, how could a passing Flathead not be attracted? At the next available opportunity, I also intend to target Lake Burley Griffin Redfin using this method, though that perhaps is the subject of another article.

Anyway, I've never really worked out how to fish these unusual little lures. However, all will now be revealed.

This YouTube video shows the Jackson Chinu Koroli being used solo – and while it's possible it may attract a curious bream, it seems to be lacking something special to entice a strike.

[www.youtube.com/watch?v=FSMYa24x2tE](http://www.youtube.com/watch?v=FSMYa24x2tE)

However, it's when a small buoyant yabby claw gets added to the mix (e.g. Jackson Chinu Koro Craw) that the magic starts to happens (jump to 1:00).

[www.youtube.com/watch?v=e14ZoyYDf1A&t=2s](http://www.youtube.com/watch?v=e14ZoyYDf1A&t=2s)

## **JACKSON CHINU KOROLI**

The first part of the Jackson Chinu System consists of a bottom-weighted hard body that can be cast a long way and then twitched back along the bottom. It also has a small lumo tube on the hook that can be used to jam the hook into a vertical position to greatly reduce the chance of snags in rougher territory.

## **JACKSON CHINU KORO CRAW**

The second part of the system is a small buoyant soft plastic which imitates a yabby/nipper extremely well – claws floating towards the surface in an aggressive life-like manner. According to the manufacturer, they are also impregnated with the enticing scent of amino acids extracted from small crustaceans, which Bream just love (apparently).

## **Magic Combination**

Both lures are claimed to be effective by themselves, however when rigged in combination, they promise to be a much more productive proposition.

## Techniques

All techniques require the lure to first sink to the bottom (there are other methods better suited to searching mid-water):

- Quick quarter-to-half turns of the reel handle followed by 1-5 second pauses works well.
- A very slow rolling retrieve with frequent pauses may also work well, especially with more timid fish.
- 'Hop' the lure along the bottom by gently lifting the rod tip. Hint: To avoid slack-lining on the drop always lower the rod tip too.
- Faster variations of the above can be used to target more aggressive species like Flathead.

## Rigging

- Prepare leader as normal (I recommend fluorocarbon). As with all finesse situations, the lighter the better – though best to be mindful that when fishing the bottom, snags are inevitable.
- Tie or clip the Chinu Koroli lure and then jam the lumo tubing up over the eye of the hook so that it sits in an upright position (this is the critical part which many overlook).
- Attach the soft plastic simply by hooking it through the middle of the base and push the hook barb through the segmented section.

Because there's no grub-keeper on the hook, the plastic craw can be held more securely in place with a small dab of super glue. Another method favoured by those with access to a fly-tying vice & thread is to whip several layers of thread around the shank of the hook to provide more traction for the soft plastic. Alternatively, the factory fitted hook can be replaced with a very small fine-wire weedless hook:

## Alternative

An alternative is to 'ned rig' using a TT NedlockZ jighead (or any mushroom style jighead) and a Zman 2.5" TRD CrawZ (or any highly buoyant craw or creature soft plastic). The trick to this technique is to only use floating soft plastics, and to trim short if necessary.

Due to the lack of articulation, ned rigged floating claws are not quite as wafty in the water. However, I suspect when push comes to shove it'd be just as effective as the Jackson Chinu System (and much cheaper too).

Alternatives aside, the whole purpose of this brief article was to provide instruction on how to use those curious little prawn-like thingamabobs you picked up from the prize table a few years ago, but never worked out what to do with them. Well now you know.

## A blast from the past

**Jon Vogel aka the Armchair Angler and Anthony Heiser**

It's been a rather grim summer, and I'm sure you're all concerned what impact this will have on our fish stocks. This Summer has taken 'grim' to a level few, if any, have every experienced and hope never to experience again. While not on the same level of 'grimness', it's worth reading this fishing report from the late Bryan Pratt from the *Canberra Chronicle* from April 1998.

Thank you Jon for sharing this article, I've reproduced his email to me and Bryan's fishing report.

G'day Anthony,

I found the attached clipping today when thumbing through an old copy of Bryan Pratt's book "The Canberra Fisherman" which had been gifted me by Keith after he'd done some cleaning up a year or two back.

It's from The Canberra Chronicle dated 1/4/98 and features an article by Bryan entitled "Trout stock dwindle as drought worsens".

I thought it might make something worth including in an upcoming newsletter, the headline of which seems very topical and timely even though it harks back to a time when Googong produce good trout.

It was also a time when "... Lake George was one of Australia's largest permanent natural lakes and contained Cod, Golden & Silver Perch and also Redfin ...". That article also covers the closure of the Woodlawn mine (zinc, lead and copper) adjacent to Lake George, and expresses concern that inadequate provisions had been made for restoration and/or to stop leaching from the tailings dam which might then ruin one of the world's greatest trout streams of all time ... the mighty Molonglo River. It's interesting to note that 20 years after closure in 1998 due to the collapse of metal prices in the wake of what was dubbed the Asian Financial Crisis, that the same mine was due to be returned to full operation.

Different times back then since in Mar/Apr 1998 Eucumbene was at 74% and Jindabyne at 66%, however Burrinjuck languished at 9%, Tantangara 6%, and Blowering 13%.

But some things never change because even then Bryan was flogging Stucky's hand made Burrinjuck Specials. I have about a dozen ... somewhere, and I'm sure they were as expensive then as they are now.

Anyway, I hope you enjoy reading the article and if you wanted to include it in the newsletter then I can also send a high quality .jpg image. However, if you don't think it's worth putting in the newsletter do let me know and I might circulate it to one or two in the club who've been around a while and might enjoy this blast from the past.

Cheers ... JonV.

# Trout stocks dwindle as drought worsens

THE DROUGHT throughout the ACT-Monaro region is becoming quite extreme. Most trout streams have either dried up or been reduced to a trickle or chain of shallow pools and it seems likely that we have lost a major portion of our trout stocks.

The exceptions are the very high country streams where occasional rain events and generally lower temperatures have allowed the trout to survive. That means it is largely a waste of time fishing the upper Qucanbeyan, Strike-a-Light Creek, Balinafad, Kydra, Kybean, Badja, Big Badja, Numeralla, MacLaughlin, Bobundara and most of the Murrumbidgee, but still worth a try in the Thredbo, upper Murrumbidgee and Eucumbene.

David Martin tried the Eucumbene River for several days, landing 19 browns and one rainbow, all in excellent condition. Five of the browns were more than 2.5kg and the rest averaged more than 1kg. All were taken on a size 14 grasshopper of his own tie. All the fish were released.

## REGIONAL LAKES

SOME of the trout that retreated to the big lakes seeking sanctuary have died from heat stress. At Burrinjuck it is assumed that most, probably all, of the trout and Atlantic salmon have died as the lake was drained by the Department of Land and Water Conservation.

That means that the major stocks of fish intended for the Goodradigbee and Murrumbidgee rivers in autumn and winter won't be there.

Regional lake levels a week ago were: Burrinjuck 9 per cent; Burrendong 2.9 per cent; Tantangara 6 per cent; Blowering 13 per cent; Hume 17 per cent; Wyangala 41 per cent; and Windamere 40 per cent.

Water is still being released at a rapid rate from Burrinjuck, according to an angler who passed over the Bidgee at Gundagi this week, partly for downstream irrigation and partly for private individuals to sell at a profit.

## TACKLE BOX

Bryan Pratt

Incidentally, despite constant assurances from the Department that Burrinjuck would not be drained below 10 per cent it is now being drained to an unstated level.

## MOUNTAIN LAKES

EUCUMBENE is at 74 per cent of capacity and Jindabyne 66 per cent. Water temperatures are beginning to drop and a few larger fish are appearing among the hordes of small fish that have been bothering bait, fly and lure anglers during the summer.

Robin Camilleri and Mat Riley came up from Melbourne and caught 40 fish in three days on the Providence Flats at Eucumbene, all on Hamills Killer. Ron Millet and friends also did well with Hamills Killer, Red Tag and Geechi Beetle. Their best fish was a 2.3kg brown.

Ted and Wendy Robertson from Newcastle used mudeyes to take 33 fish from Studlands Bay. Mudeyes are a deadly bait at the moment, especially the big cutouts fished under a bubble float or mudye waggler float.

Surprisingly, some of the best fish are being taken around mid afternoon. Trollers have started to find a few nice fish in Jindabyne in the Kalkite area, using mostly small minnow lures such as Min Min, Burrinjuck Special and McGrath Minnow. Mudeyes fished after dark have been the top bait.

## GOOGONG RESERVOIR

GOOGONG has dropped a bit but is still the best fishery in the region. Stephen Hawkes did well again, with a nice Murray cod, some redfin and golden perch and one more large trout. Yabbies have been excellent bait and the fish are taking lures readily in the clear water.

## MINE CONCERNS

THE CLOSURE of Woodlawn mine adjacent to Lake George was a tough blow to the many Goulburn and other regional workers who not only lost their jobs but didn't get paid either.

There may be more problems to come, too. Rumour has it that the bond lodged with the Government prior to the mining operation getting under way some years ago may not be sufficient to carry out necessary remedial works on the site and there is concern about tailings dumps and possibly two million litres of contaminated water at the site.

Let's hope we are not about to see another disaster, whereby mining operations at the headwaters of one of the world's great trout streams, the Molonglo River, ruin the stream for all time.

Lake George is Australia's largest "permanent" natural lake, if you discount the ephemeral salt lakes in inland Australia, and contains some good Murray cod, golden perch, silver perch and redfin. It deserves, as do all other waterways in the region, the utmost protection against mining and other pollution.

## NEW ZEALAND TRIP

THE 28TH International Yellowtail (Kingfish) Tournament, which we fish in New Zealand every year, is coming up again on June 5-14. This is always a great fishing and social trip and is organised by well known Melbourne angler Terry Titchner in conjunction with the Bay of Islands Swordfish Club.

Between 30 and 40 of us go every year to do battle with the kingies and the New Zealanders. It is strictly a fun competition, but still fiercely fought, and is limited to 6kg and 8kg tackle. The cost for the entire 10-day trip, which includes air fares, accommodation, competition fees, boat hire and so on is \$1600 a person, but places are limited.

For further details call Terry Titchner on (03) 9580 7346 or 015 337 990.

# A day trip to the ANSA Nowra Convention

Anthony Heiser

I made the trip to Jervis Bay and the Crookhaven Holiday Park on 15 February 2020 to fish the ANSA Nowra Convention. Unfortunately, I could only make a day trip that weekend. Waves were forecast to be 2 to 3 metres but easing towards the end of the day.

After arriving at Nowra around midday and scouting a few beaches, I decided to fish Bhewerre Beach. Those who attended the May 2009 outing to Jervis Bay will recall Bhewerre Beach was very productive, producing Salmon, Tailor, Bream, Fidler Rays and an assortment of other fish. The beach was fishable and there were some decent gutters. Unfortunately, the fish were absent.

The guys from *Botany Bay Sportsfishing Club* did better on the bluewater, tagging several Marlin. St Georges Basin also produced some nice Bream and Flathead. Chris Stolk from *Wollongong Sportsfishing Club* did particularly well, landing a 5.32 kg and 1.74 kg Flathead on 1 kg line. Chris won both the Estuary Division and Most Meritorious Capture for his efforts, while *Botany Bay Sportsfishing Club* took home the Trophy for Champion Club.

Left: Like last year, *Nowra Sportsfishing Club* hosted a great Convention Dinner on Saturday Night. Top right: Bhewerre Beach on Saturday afternoon. Bottom right: Dingo spotted 20 km west of *HMAS Albatross*. A little searching on google suggests it's most likely a bitzer, possibly only 22% to 60% pure Dingo.

## Total Length Award species for 2019-20

The Total Length Awards bring on healthy competition from the ranks of the CFC and for 2018-19, the target species are Flathead for the Saltwater section and European Carp. The new target species applies from 1 July 2018.

**The target species for the 2018-19 fishing year are:**

Saltwater section: Flathead

Freshwater section: European Carp

**How many metres can you catch?**

## December 2019 and January 2020 Photo Competition

I have the gallery for [2019-20](#) up on the website. Please send me your photos.

- Members can submit up to two photos per month.
- Photo comp entries can be submitted via the website, the Club email address ([info@canberrafishos.com](mailto:info@canberrafishos.com)) or [anthony.heiser@bigpond.com](mailto:anthony.heiser@bigpond.com) or via SMS to 0402 560 880.
- Acceptance of photo comp entries submitted by other means is at my discretion – please don't make it too hard for me to access your photo comp entries.
- The photo must either be taken by the member submitting the photo or a photo of the member holding their capture.
- Minor image corrections and cropping is allowed provided this does not lead to misleading or fraudulent alteration or manipulation of the photo.
- The Committee reserves the right to exclude any entries it suspects has been subject to misleading or fraudulent alteration or manipulation.

I've seen some great captures on our Facebook Page. For equally good photos:

- Fill the frame with the angler and the fish
- Be careful not to chop the angler's head or arms or the fish in the photo
- Shoot at eye level (especially for junior anglers and anglers kneeling or sitting)
- Keep the background in the photo as simple as possible
  - Simple water and sky is best
  - Pay careful attention when taking photos on boats and boat ramps – both settings can easily fill the photo with distracting clutter in the background or around the angler

### List of photo comp winners and recipients of Editor's Choice for best newsletter contributions: 2019-20

We've been a little behind on the awarding of vouchers for the monthly photo competition and best newsletter contributions. To make sure we don't lose track of all the winners, I'll keep a running list of the winners in the Newsletter.

Month	Photo comp winner		Editor's choice for best newsletter contribution	
	Name	Voucher awarded	Name	Voucher awarded
July 2019	Jon Vogel	11 February 2020	Not awarded	N/A
August 2019	Jason Rogers		Not awarded	N/A
September 2019	Chris Lemmon	11 February 2020		
October 2019	Lindsay Steele	11 February 2020	Not awarded	N/A
November 2019	Bonnita Allen	11 February 2020	Jon Vogel	11 February 2020
December 2019	Andrew Butt		Lindsay Steele	11 February 2020
January 2020	Jon Vogel	11 February 2020		
February 2020			Jon Vogel	
March 2020				
April 2020				
May 2020				
June 2020				

## December Photo Comp

Anthony Heiser: PB and choker Flathead on Fly

Lindsay Steele: Alex with a Carp at the Xmas Party

## Winner of the December 2019 Competition

Andrew Butt: Golden Perch at the December Outing

## January Photo Comp

Lindsay Steele: Smoked LGB Carp on New Year's Day.

Lindsay Steele: Smoked LGB Carp on New Year's Day.

Anthony Heiser: New Year's Eve Catfish from the Brisbane River.

Anthony Heiser: Last fish for 2019 – just legal Brisbane River Bream.

## Winner of the January 2020 Photo Competition

Jon Vogel: Pre-smoked fish at Wallaga Lake
